An Icebox Out of Repair Means Food Waste!

Everything you waste is a boost to the Axis. Don't waste food by letting your electric refrigerator get out of order. Call a repair man immediately when something goes wrong. You can help win this war by saving food.

Don't Give Your Iron a Chance to Go A.W.O.L.!

Your electric iron is one of the most useful of all your household appliances . . . so keep it ironing! Don't let worn cords cause "shorts" and blown fuses. Take the iron and the cord in to your repair man as soon as trouble starts. Electrical appliances are hard to replace!
