"Giving thanks always for all things unto God and the Father in the name of our Lord Jesus Christ.—Eph. 5.20.

We show our gratitude to God by using His gifts in service to others rather than self. If our time, strength and money are spent upon self, there is no evidence of thanksgiving.

Let us praise our God every day for His great love and tender mercies, giving thanks always for all things. Then may our words prove our words of praise to be sincere.

You are cordially invited to our services.

Sermon on the Good Shepherd

By MARTIN LUTHER

CHRIST knows us as His sheep, and we, on the other hand, know Him as our shepherd. He looks upon us as sheep that are weak, sick, and have broken limbs: that is, He cares not that His sheep are thus weak and sick, despised and ejected; but takes them to Him and heals them. His eyes are on the sheep, not on the wolf.

47 Carloads of
Soybeans Shipped

This year has produced a great soybean crop in the Mount Pulaski area, with many fields yielding above the average, some as much as fifty bushels to the acre. During the heavy October harvest, which began two weeks earlier than last year, a large number of combines were in use, and often as many as fifteen loaded trucks would be waiting their turn at one elevator, as 7:30 p.m. On three Sundays the elevators remained in operation. Most of the soybeans brought the ceiling price of \$1.60 per bushel, while some damaged by the early frost in September, did not bring quite so much.

Not all the soybeans have been harvested and thousands of bushels are stored in the elevators awaiting cars for shipment. Five elevators bill out of the local Illinois Central station, three in the city and two in the country. From Oct. 7 to Oct. 31 there were 77 carloads of beans shipped out. As the harvest ends, more figures can be given.

SHOTS GIVEN TO PREVENT
TYPHOID FEVER START

In cooperation with the State Department of Public Health, a meeting was held at the Mount Pulaski grade school last Friday morning for the purpose of giving children typhoid immunization shots. The work was in charge of Drs. G. S. Connelly and C. E. Hildreth, assisted by two nurses from the state department. This was the first of three treatments, one week apart, and many pupils from the school and also country schools in this area were treated.

Township high students, and adults in general who are interested are asked to be present at the grade school this Friday morning for their first treatment and to make arrangement for the following two. The third treatment for those who began Nov. 6 will be given Friday, Nov. 20.

EXPRESSION OF THANKS

I wish to thank all the friends and neighbors who called, sent me flowers, letters and cards while I was a patient in the hospital.

The Truth About Coffee

AN OPEN LETTER TO THE COFFEE CONSUMERS OF AMERICA

Dear Friends:

It is possible that you have suffered some inconvenience, because of the temporary shortage of coffee.

The NATIONAL COFFEE DEPARTMENT OF BRAZIL, representing the coffee planters of Brazil, who grow most of the finer coffees imported into the United States, greatly sympathize, as good neighbors, with you in the situation which has made it temporarily necessary to reduce the quantity normally used in your household.

There is no shortage of coffee in Brazil. However, a temporary shortage of ships prevents regular delivery to American roasters.

Under the circumstances, patience will become a virtue while the shortage exists, for as shipping improves there will be plenty of real, rich, full-flavored Brazilian coffee for everyone.

In publishing this open letter, we believe it our duty to sound a warning to safeguard, if possible, American coffee consumers against those seeking to take an unfair advantage of the emergency by dumping on the market adulterated coffees as substitutes for the rich, delicious beverage you have been accustomed to buy.

Purchases of these coffees will unwittingly align the purchaser with unjustifiable, ruthless competition for highly reputable American coffee roasters, who are willing to continue to serve the American public with genuine products. They should not be expected to compete with producers of adulterated coffees. May we repeat, your purchases of adulterated coffees will drive reputable and responsible American coffee roasters out of business, or compel them to change their existing high quality standards.

As a constant user of good coffee, you are entitled to know these facts, to exercise caution when buying coffee. If your dealer cannot supply your favorite brand and offers you a new one in its place—make sure you are getting pure coffee and see that it is labeled accordingly. That is your government's guarantee of complete protection against adulterated, or "doctored" coffee. Don't waste your ration coupon by giving it in for one pound of a mixture that is only 50% coffee. No one should be unduly alarmed over the present situation, but above all don't hoard coffee and don't waste it. It is unfair to your neighbor to hoard, and coffee is TOO GOOD TO WASTE!

Sincerely,
EURICO PENTEADO
General Representative to the United States
for the
NATIONAL COFFEE DEPARTMENT OF BRAZIL
