GRACE CURTIS

SINCERITY IS NOT ENOUGH

"It doesn't make much difference what a man believes, as long as he is sincere."—Or does it?

A man with a splitting headache got up one night, reached for what he BELIEVED was a bottle of aspirins, and gulped two of them down with a glass of water—only to find that he had grabbed the wrong bottle and had swallowed two deadly pellets. Did it make a difference?

An attendant at a nursery took what she BELIEVED was a box of baby food and mixed its contents with the milk which was being prepared for the baby ward. But she grabbed the box of roach powder by mistake? Six infants died in two days. Did it make a difference?

It is not true that it makes no difference what a man believes, as long as he is sincere. Above all, it is not true in matters of religion.

The Christian Gospel is a body of historical facts, facts which we refuse to believe only to our utter ruin. For instance, Christ is the only begotten Son of God. You either believe that, or you don't. But if you don't, Christ says: "If ye believe not that I am He, ye shall die in your sins." Evidently it does make a difference.

Similarly, the Bible speaks about sin, about salvation through the blood of Christ, about Baptism, about the Church, about prayer, about judgment. All of these clear statements of the Bible are part of that Gospel of which Christ says, "He that believeth and is baptized shall be saved; but he that believeth NOT shall be damned."

Yes, it makes a difference what you believe! Make sure that your faith is resting squarely on the Word of God. That is your sure foundation.

From where I sit... by Joe Marsh

Fish Bites Woman!

Willie Wells was coming home from Seward's Creek the other evening with a string of trout, when a stern looking lady (visitor at the Boxwood Inn) stops him, and tells him a man his size could be better occupied than catching fish.

Willie tells her off real good-naturedly by saying: "Perhaps you're right, but if these fish had kept their mouths shut, they wouldn't be here." (At that, says Willie, laughing out loud, she looked just as if a fish had bit her!)

Blabbing mouths never cause

anything but trouble. Nobody who knew the facts would ever criticize Willie's right to go fishing on his one day off—any more than they'd deny his right to come home to a mellow glass of beer.

From where I sit, the slower we are to criticize—and the quicker we are to recognize another's tastes, the better we'll get along together—whether those tastes apply to beer or fishing.
